

Compatible Label Tapes for Brother and DYMO

- ▶ Excellent print quality
- ▶ Patent-free products
- ▶ Sufficient supply

In Stock Models:

Brother	9mm (3/8")	12mm (1/2")	12mm (1/2")	Length
Black on Clear	LT-121	LT-131	LT-131	8m
Black on White	LT-221	LT-231	LT-231	8m
Black on Red	LT-421	LT-431	LT-431	8m
Black on Blue	LT-521	LT-531	LT-531	8m
Black on Yellow	LT-621	LT-631	LT-631	8m
Black on Green	LT-721	LT-731	LT-731	8m
Red on Clear		LT-132	LT-132	8m
Red on White	LT-222	LT-232	LT-232	8m
Blue on Clear		LT-133	LT-133	8m
Blue on White	LT-223	LT-233	LT-233	8m
Black on White		LT-S231	LT-S231	8m
DYMO	9mm (3/8")	12mm (1/2")	12mm (1/2")	Length
Black on Clear	LT-40910	LT-45010		7m
Black on White	LT-40913	LT-45013		7m

Why Aster Label Tapes

Aster label tapes undergo rigorous test, ensuring the reliable and stable print quality.

Abrasion Resistance

After 10 rounds passes with a 300g weight on an abrasion tester, the characters underneath the tape were completely unaffected.

Water Resistance

After being immersed in the water for 2 hours, the color density loss rate is less than 10 percent.

Fade Resistance

Put the tapes into a UV test chamber, with the UV light power of 30W and the light source distance 150±10mm. After 12 hours, the color density loss is less than 0.4.

Strong Adhesion

Aster label tapes are designed for application to almost all surfaces. In high/low-temp environment, the tapes also have adhesive performance.
